# Data Preview 0.2 and Operations rehearsal for DRP.

William O'Mullane

RTN-041

Latest Revision: 2022-08-02

## Abstract

DM delivered software to operations to perform processing of the DESC DC2 data as well as enhancements to the portal and Qserv for interaction with the results. The release of this was called Data Preview 0.2 and the production of the data products and publication of them were carried out in an operational manner. This provides valuable insights for operational data releases.
